

BRAND QUALITY WITHOUT THE BRAND

**PREMIUM TRAINING
& TEAMWEAR**

A uniquely designed and manufactured “unbranded” teamsport range available from UK stock. Enabling you to offer your teams and clubs at all levels of sport a true alternative to many other major sports and teamwear brands and stockists. Genuinely better and genuinely in a class of its own...

Created by a team of garment and textile specialists with a wealth of experience in garment manufacturing. Drawing on extensive working knowledge of performance fabrics means premium quality clothing and accessories have been created without high cost.

See for yourself why many aspiring brands, resellers and retailers consider this to be the best “non branded” stock co-ordinated teamwear range available.

Each range within this collection is consistently sized. However, when purchasing a product for the first time, especially for a new team or athlete, fit samples are highly recommended. The human form encompasses a wide variety of body shapes, and ensuring the desired fit is paramount to the wearers comfort.

AVAILABILITY - UK STOCK SUPPORTED

Maintaining substantial stock levels of 75 performance styles, spanning a comprehensive range of sizes and colours from age 5 to adult 4XL. Whether you need a single piece or high-volume, strong inventory accommodates your needs. Forward order management to assist in planning and managing your cash flow effectively is available to all customers.

CONTINUITY

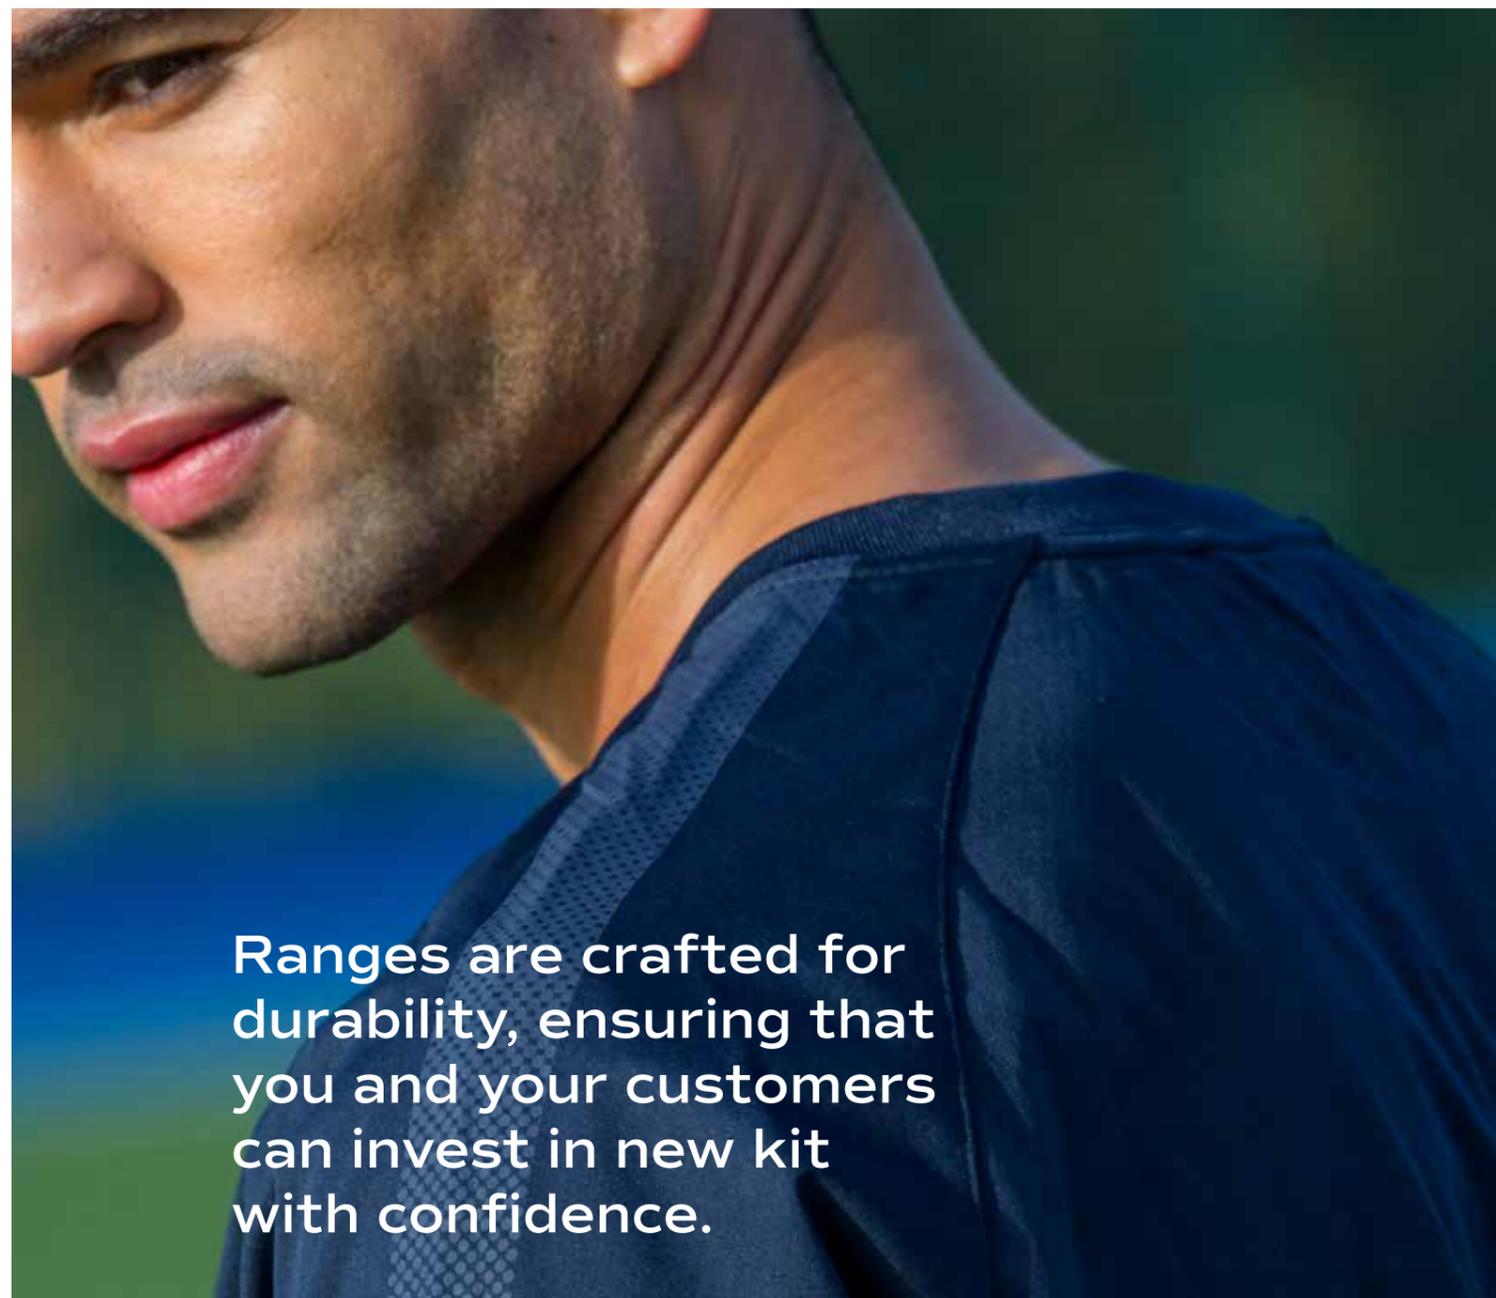

Resellers and brands can trust that all styles within these fully coordinated ranges are consistently replenished. In contrast to many prominent retail sports brands susceptible to shifting market trends, ranges are crafted for durability, ensuring that you and your customers can invest in new kit with confidence, knowing it will remain available season after season, year after year.

KEY BENEFITS

“BRAND QUALITY WITHOUT THE BRAND”!

The chance to offer market leading, innovative, and premium quality teamsport products and an opportunity to build real trust with your teams, clubs, schools, and universities at all levels.

Ranges are crafted for durability, ensuring that you and your customers can invest in new kit with confidence.

GUARANTEED QUALITY

Designed and developed in the UK by a team of garment and performance fabric specialists to ensure styles are fit for purpose, quality is rigorously controlled at all stages to international standards (AQL2.5) by independent quality control “gatekeepers” over and above in-house factory QC procedures, from wearer and fit trials through to bulk production.

CONSISTENCY

Ensuring consistency in product delivery requires meticulous control and management of fabric, trims, colour, and stitch quality. Extensive testing on all fabrics and trims is conducted by INTERTEK to maintain the highest standards.

CUSTOMISATION

All styles have been designed with embellishment in mind, print friendly fabrics combined with important access points for embroidery. Enabling you to easily add logos, initials and team sponsors.

SPORTS BRANDS AND TEAMWEAR RESELLERS

A GENUINE ALTERNATIVE

Crafted from specially developed, best-in-class technical fabrics, with an emphasis on correct fit and subtle trim and panel details, the ranges offer a credible alternative to international sports brand choices.

Notably, many styles are suitable for multisport teamwear, especially the high-profile EDGE and KINETIC ranges.

The CORE and TECH CORE RANGES also feature a selection of sport-specific products, ranging from touchline to triathlons. Complemented by a highly efficient and flexible stock service, you can react promptly to last-minute requests for tours, tournaments, or a complete makeover for a club. All styles are “unbranded”, designed to accommodate sponsors, club logos, or, most importantly, your own brand label. These trade-only ranges are not available to end-users, allowing your brand to stand out and enhance your margins simultaneously.

Crafted from specially developed, best-in-class technical fabrics, with an emphasis on correct fit and subtle trim and panel details.

EDUCATIONAL AND SCHOOLWEAR RETAILERS

TRUSTWORTHY AND RELIABLE

School clothing should not only be cost-effective but also practical, functional and aesthetically pleasing.

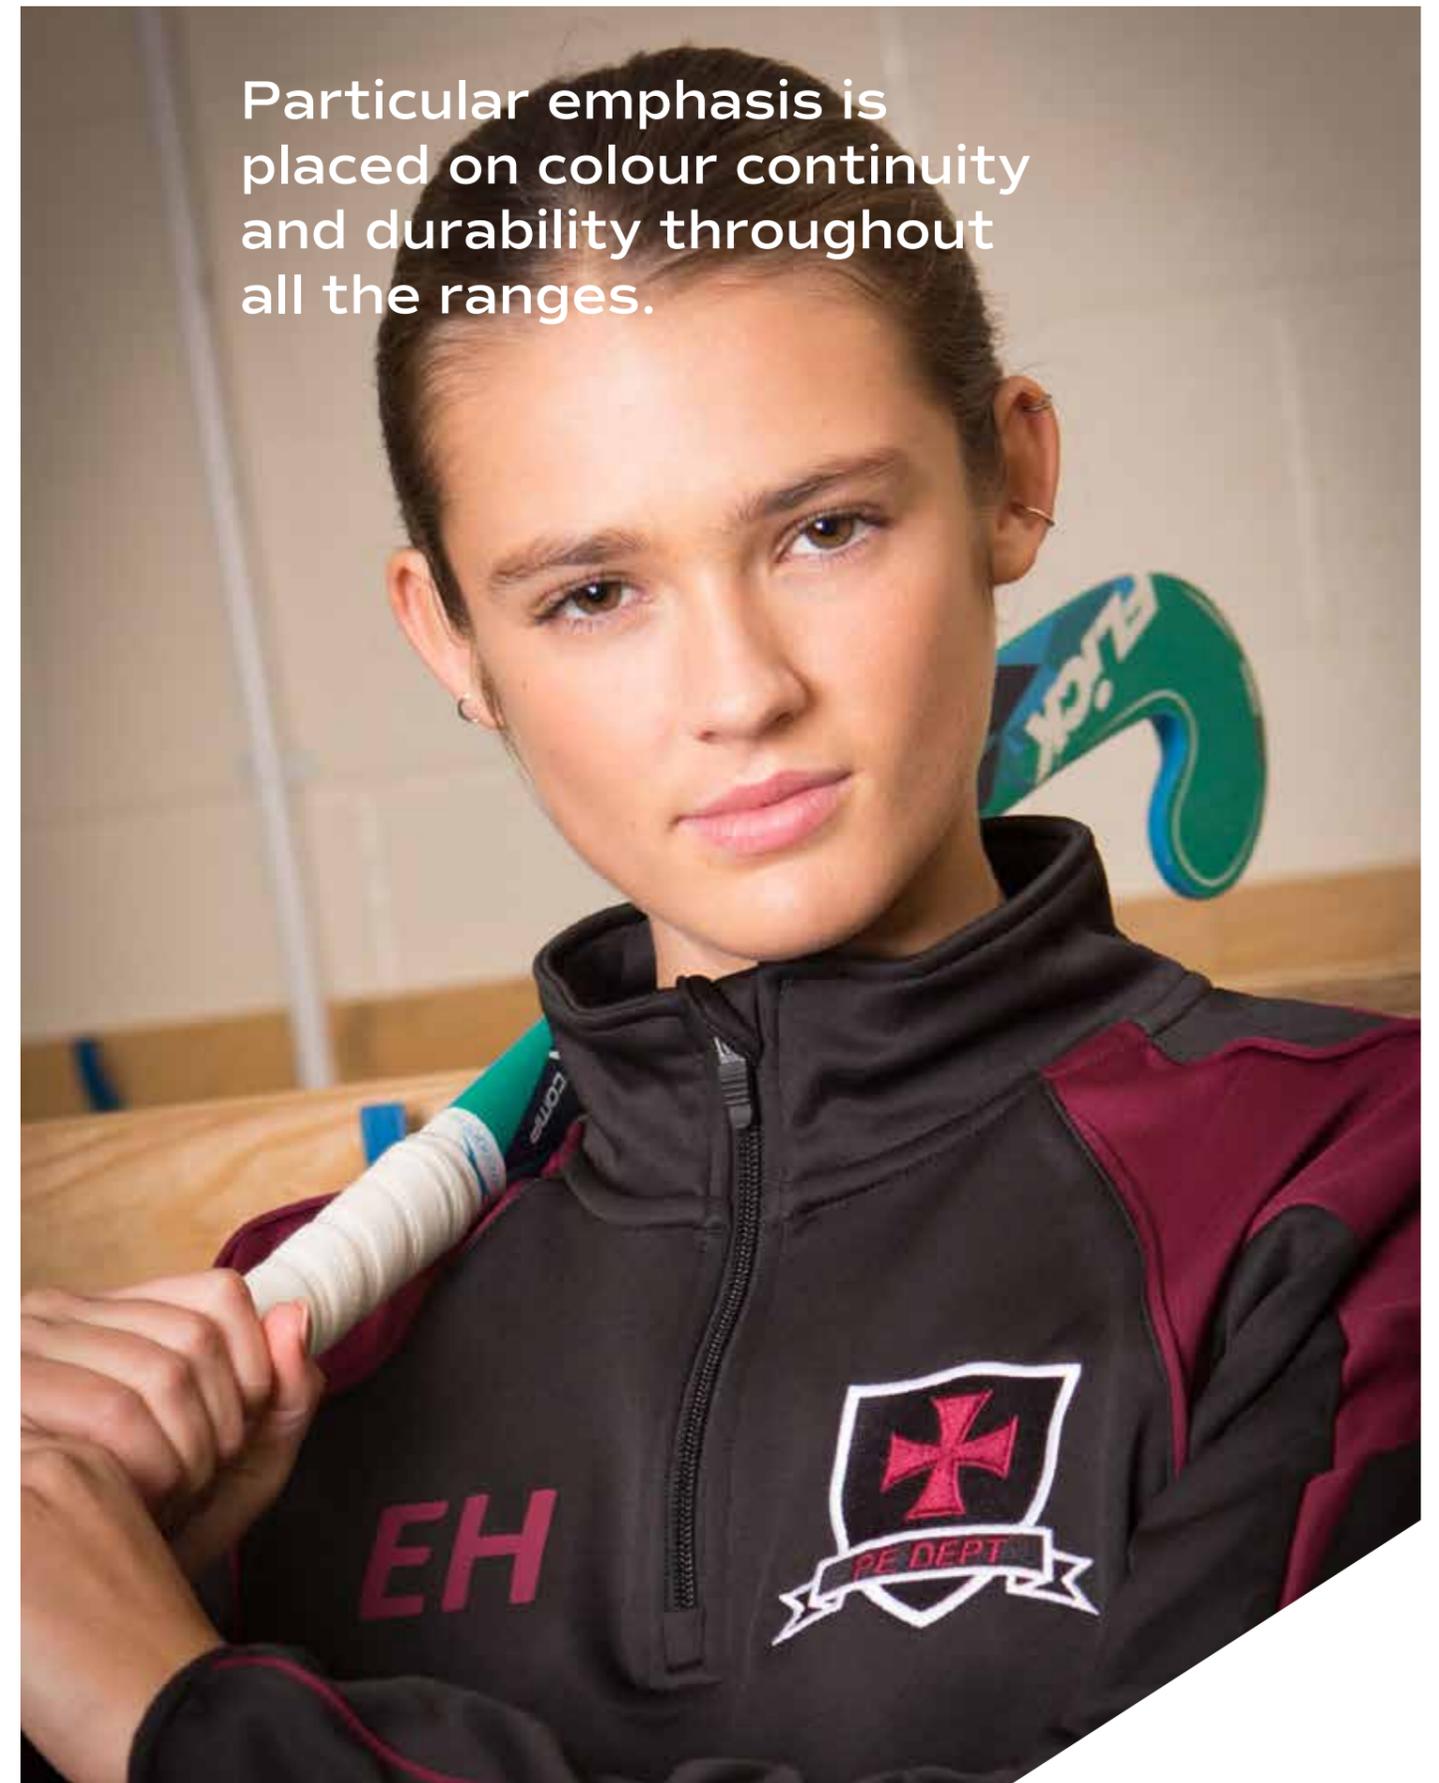

It serves as an extension of the formal uniform, reflecting the identity of the school. Continuity, quality and availability should be expected, as opting for cheaper alternatives often leads to returns or complaints.

The iGEN PE and games kit range stands out as a true performance multisport collection designed for both schools and sports clubs, embodying why premium teamwear should be affordable for your school.

Particular emphasis is placed on colour continuity and durability throughout all the ranges. Regular checks for colour continuity and physical fabric testing are standard procedures for all bulk production. Rest assured; these products are meticulously crafted to be fit for their intended purpose.

Particular emphasis is placed on colour continuity and durability throughout all the ranges.

FIT FOR PURPOSE

TESTING

The demands of playing sports and training frequently, whether at the professional or grassroots level, place significant stress on clothing and equipment.

The priorities and expectations of wearers can vary based on the end use and level of activity. Any physical aspect of a fabric or garment has the potential to fail if not manufactured to a suitable standard. Washing conditions, fabric and seam strength issues, excessive sweat, or exposure to sunlight can affect performance.

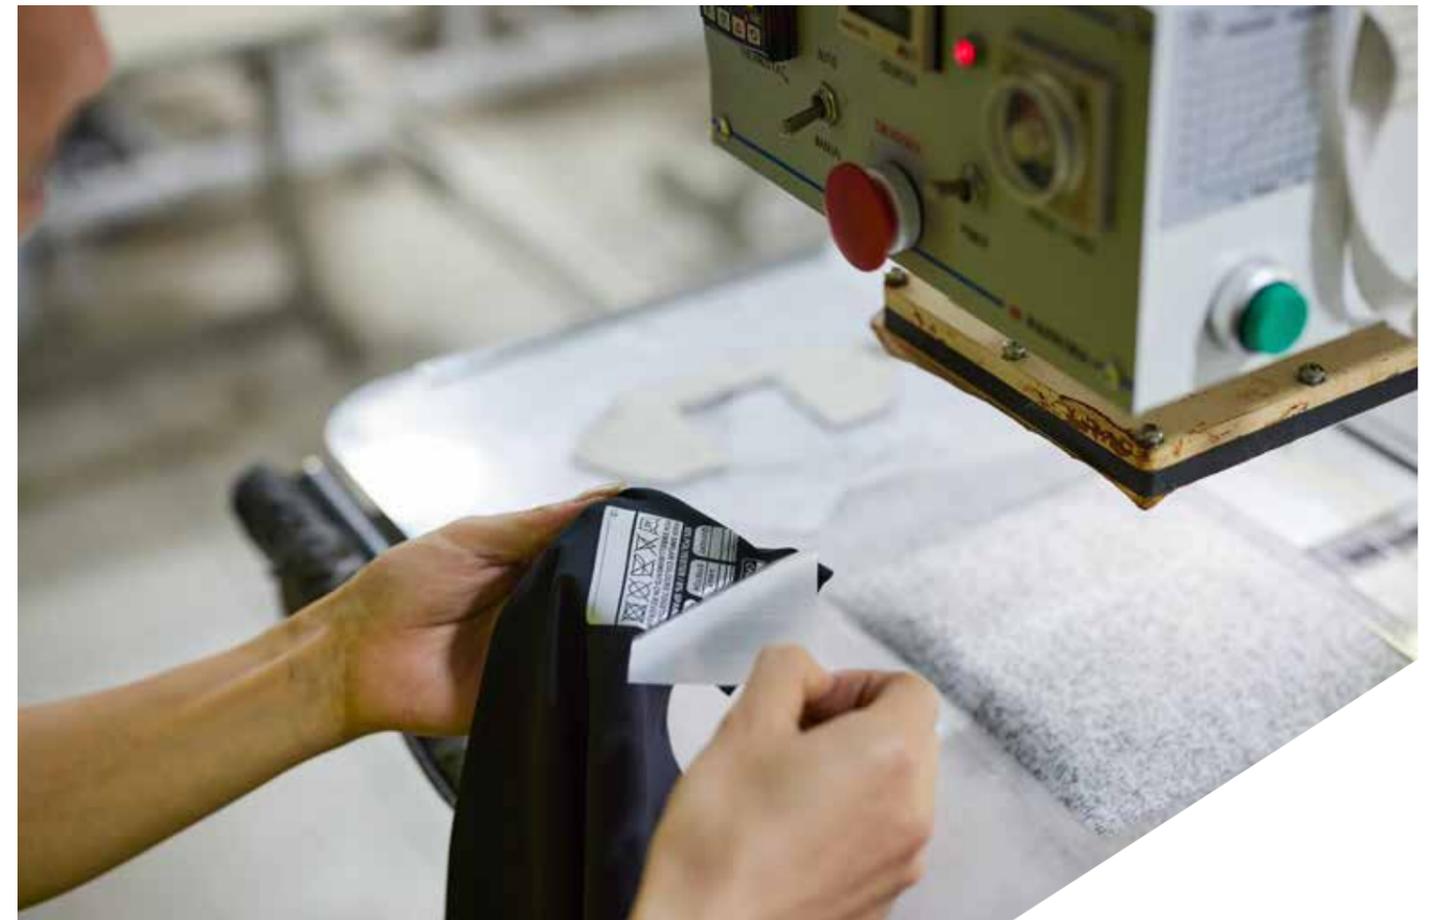

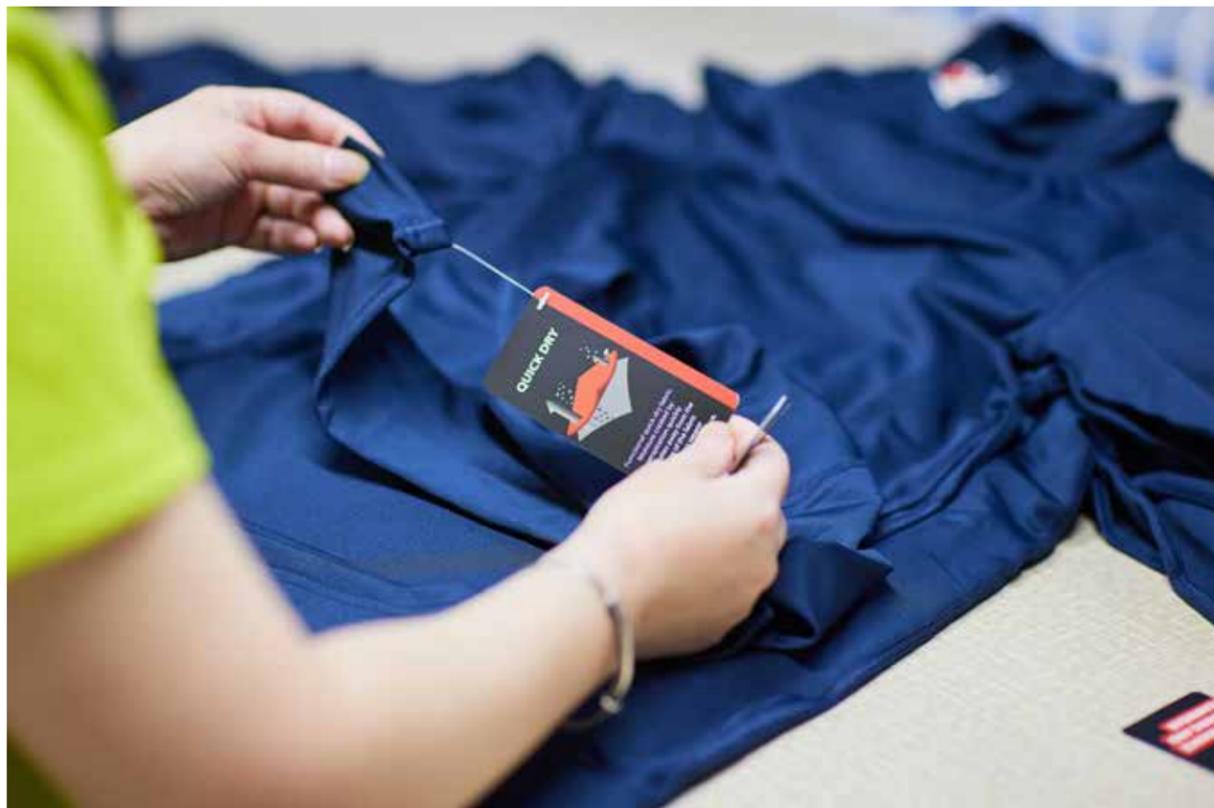

All products in the ranges undergo thorough trials and testing according to BS EN ISO quality levels, utilising INTERTEK (www.intertek.com), both during the development stage and before bulk manufacturing.

The distinguishing feature of this uniquely unbranded range is that the same products sold for grassroots or school sports are identical to those used by sports professionals and specialist brands. Consistent testing standards and quality levels are maintained regardless of the end user, all while offering affordable and competitive prices. The fusion of specialist manufacturing techniques and extensive fabric knowledge results in the creation of highly durable clothing.

The fusion of specialist manufacturing techniques and extensive fabric knowledge results in the creation of highly durable clothing.

BSCI - BUSINESS SOCIAL COMPLIANCE INITIATIVE

ETHICAL RESPONSIBILITIES

All factories involved in the manufacturing and production of the ranges strictly adhere to the guidelines established by AMFORI in the BSCI initiative (www.amfori.org). In addition they are visited in person by the UK based buying team on a regular basis.

In an evolving global industry, brands, companies, and consumers are progressively advocating for more ethical and transparent business practices. There is a growing desire to be better informed about the origins and methods of production for goods.

BSCI - KEY BENEFITS

Easy identification and prioritisation of key risk areas

Alignment with internationally recognised and common principles

Continuous updates or systems to be fit for the future

Efficient monitoring and reporting thanks to visual dashboards

The 12 Social Performance amfori BSCI allows us to measure;

1. Social Management System and Cascade effect
2. Workers Involvement and Protection
3. The Rights of Freedom of Association and Collective Bargaining
4. No Discrimination, Violence or Harassment
5. Fair Remuneration
6. Decent Working Hours
7. Occupational Health and Safety
8. No Child Labour
9. Special Protection for Young Workers
10. No Bonded, Forced Labour or Human Trafficking
11. Protection of the Environment
12. Ethical business behaviour

SUSTAINABILITY

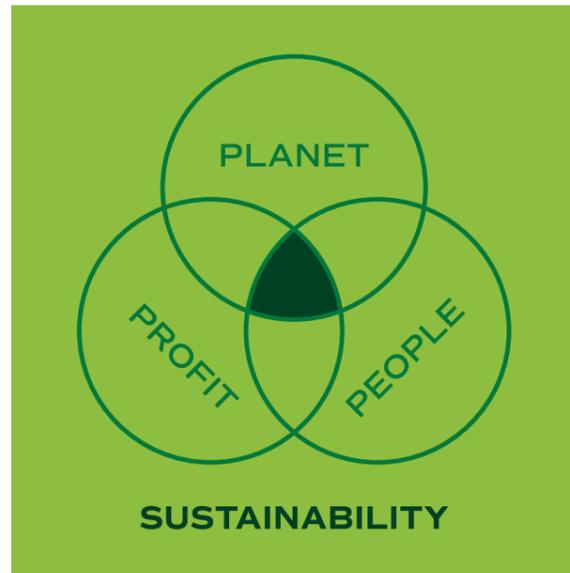

The commitment to improving the environmental impact of garment production remains a central focus in both ongoing and new product development.

Only fabrics and trims meeting the stringent criteria of the “**Oeko-Tex** Standard 100” are employed whenever possible, proudly displaying the associated logo and referring to the designated website. Oeko-Tex stands as one of the world's most renowned labels for ensuring products are free from harmful substances, signifying a commitment to customer confidence and elevated product safety.

The comprehensive testing process considers a diverse array of regulated and non-regulated substances, taking into account potential threats to human health. In many instances, the limit values established by the **Oeko-Tex** Standard 100 surpass both national and international requirements. Adhering to this guiding principle, all textile articles undergo rigorous testing at each stage of processing – from threads to finished fabrics, including buttons, zips, and trims.

A shift towards sustainability was initiated with the introduction of recycled packaging, specifically in the form of plastic bags, for all new production. Additionally, a significant step forward is being taken by incorporating recycled yarns wherever feasible, exemplified by the iGEN range.

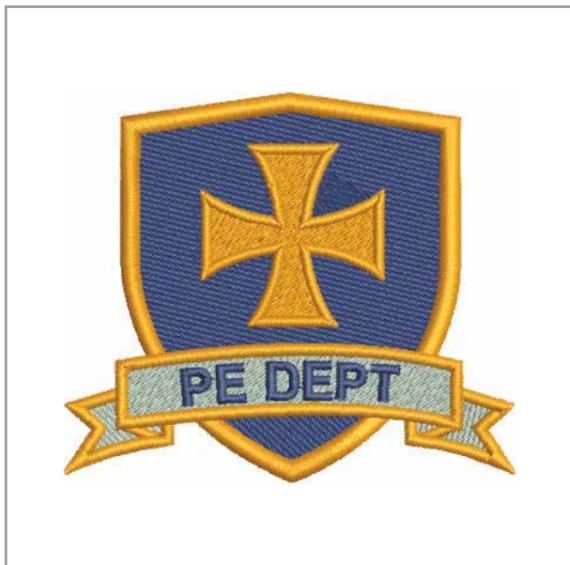

MARKETING SUPPORT

Elevate your business's marketing endeavours with the wide array of imagery and video content. Feel assured as you present and promote your garments, leveraging our diverse range of visuals, all readily accessible upon request.

BESPOKE PRESENTATION VISUALS

Visual presentations are perfect for displaying the variety of products you intend to showcase to your clubs, teams, and schools. Logos, crests, and personalisation can be seamlessly integrated into the visuals to enhance the overall affinity and connection with your target audience.

PHOTOGRAPHY

Access an extensive library of location and studio photography encompassing all products and ranges, ready for download and utilisation in your marketing materials. Offering photography for all team, school, and trainingwear styles in a diverse array of colours, all of which can be provided upon request.

WEBSITE

CSV files are available on request, allowing you to upload product information onto your website.

END USER BROCHURES

Unbranded brochures designed for end-users are available at your disposal. From the full product offering to mini range focused brochures, they only display the relevant information for the end-user. End-user brochures come with your logos/branding added. The brochures are conveniently provided in PDF format.

MANNEQUIN VISUALS

Utilise presentation visuals to effectively showcase fully coordinated team, training wear, and schoolwear ranges. It is possible to create imagery tailored to your specifications, incorporating logos, crests, and personalisation to enhance presentations and club/school shops. Mannequin imagery is available in three angles for all styles in every colour combination, ensuring a comprehensive view of each garment's key design features, providing an accurate representation of quality and design.
