BEACH BEYOND

ABOUT MIZUNO

FOUNDED IN 1906, OSAKA JAPAN

Rihachi Mizuno and his younger brother Rizo founded "Mizuno Brothers Ltd." in Kita Ward, Osaka.

The shop sold western sundries, including baseballs. The shop's mark when it was first founded was the "Izuhi."

IN 1928, MIZUNO STARTS MANUFACTURING TRACK AND FIELD CLEATS

When Mizuno first began producing track and field cleats, the material was leather, and long heavy pins were used as spikes. They are the item which has been supported by many top athletes since then and was the starting point of Mizuno's growth into what it is today.

IN 1983, LAUNCH OF RUNBIRD SHOES

That is a mark of the shoes which expresses "an orbit of a planet." It is named "RunBird" for its shape. Now it is the corporate logo of Mizuno and carries a vital role as the symbol of the company's brand.

IN 1991, GLOBAL ENVIRONMENTAL PROTECTION ACTIVITY "CREW 21"

Crew21 (Conservation of Resources and Environmental Wave21) out of the wish to play a role as a crew member of "Spaceship Earth" and to carry out activities to protect resources and the environment. This is when the company's activities to realize a sustainable world started.

IN 2022, INNOVATION CENTER "MIZUNO ENGINE"

The new Innovation Center "MIZUNO ENGINE" on the premises of its Osaka Head Quarters to strengthen its research and development capabilities and accelerate the creation of social innovation through sports. The Innovation Center is a facility that brings special equipments together in one place for "measuring," "creating," and "testing," which are the basis of research and development.

PARTNERSHIPS

The difference between something good and something great is attention to detail. Mizuno not only supports sporting activities by offering better sporting goods but also develops products and services that make the most of the value of sports and actively spread that in daily life.

TEAM APPAREL STRUCTURE

1 **INLINE**

Mizuno inline range consists of a vast range of team apparel and equipment stocked at Mizuno's European warehouse. The inline range is available in many key colour & sizes and can be personalised using print and embroidery.

2 **BESPOKE SUBLIMATION**

Sublimation is a manufacturing process that allows for limitless design possibilities. Mizuno predominately uses sublimation for on field/court playing kit. The process allows for club crest, sponsor logos, names and numbers to be embellished into the garment for no additional cost.

3 **BESPOKE CUT & SEWN**

The term 'Cut & Sewn' is when pre-coloured fabrics are cut to shape and sewn together to create a new bespoke garment. There is still a wide range of colours to select from and logo, names and number can be applied to garments using either an embroidery or print method.using either an embroidery or print method.

HOW TO ORDER

1

PRODUCT SELECTION

Select the product style, fit and collar using the product codes.

2

DESIGN

Design your team kit with your team's colours, logos, names and numbers.

3

APPROVAL

Mizuno Design Team will transfer your design in a CAD visual for your approval

4

ORDER

Once you are happy with your design, place your order with a Mizuno representative.

BESPOKE

QUALITY LOGO

1 EMBROIDERY

Traditionally used for club crest on inline and cut and sewn garments.

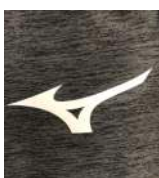

3 SUBLIMATED

Digitally printed design on a paper transferred onto (usually) white polyester material using high temperature which helps to integrate ink to the fabric

2 PRINT

High definition, multi-colour print application is predominately used for personalising inline & bespoke cut & sewn garments. Ideal for sponsor logos, names and numbers.

4 HEAT SEALED

Thermo-adhesive applications, available in few different qualities.

Please be aware that the sizing for inline and bespoke product is slightly different. This is dependent on the sport and activity the customer requires the product for. Mizuno recommends that the customer tries on the product before placing the order. Sizing samples can be arranged by contacting your Mizuno Sales Representative.

The measurements shown in the table are expressed in centimeters and indicate a range of average measurements between the minimum and maximum measurements for the corresponding size. Average Height is given as a general guide. Length of products may vary, as they are adapted to meet sport specific requirements.
